

The logo for Cadix, featuring the word "Cadix" in a white, serif font with a stylized 'X', set against a dark brown rectangular background.

## **Chinese Ink**

To bring back the colour of black terrazzo.

### Instructions:

Clean the Terrazzo surface first, and let it dry. Then apply the ink with a soft, clean dry cotton cloth.

(Always use plastic gloves, to avoid staining your fingers and protect your clothing against splashes and stains)

After the product is dry, treat the surface with our specially developed %Cadix Terrazzo Impregnator+to seal in the colour longer by making it harder for water and dirt to enter the surface which results in easier cleaning and less chance of staining.
