Grandelight Furniture - Product information and Care

Congratulations with your Grandelight Furniture purchase!

Grandelight furniture has been developed with quality, convenience and style in mind.

A Stable steel structure forms the basis of the construction. A mix of reconstituted crushed granite, resin and fibreglass is built around the steel structure to achieve a stylish and durable end product.

The surface of the table has been treated to make the product weather and scratch resistant.

Please take care in using materials on the furniture surface that are harder than the surface material itself as they can cause scratching.

Day to day use and weather influences may change the appearance of the product over time.

To Clean: Use a soft cloth or sponge and warm water

Maintenance and repair kits are available to repair scratches or to protect the furniture surface. Please visit www.cadix.co.uk or ask your reseller for further details.

Grandelight Furniture - Product information and Care

Congratulations with your Grandelight Furniture purchase!

Grandelight furniture has been developed with quality, convenience and style in mind.

A Stable steel structure forms the basis of the construction. A mix of reconstituted granite, resin and fibreglass is built around the steel structure to achieve a stylish and durable end product.

The surface of the table is weather resistant, and can be coated to reduce the risk of staining. This may change the matt appearance of the product.

To Clean: Use a soft cloth or sponge and warm water.
Small Stains may be removed by using ultra fine sanding paper.

Please take care in using materials on the furniture surface that are harder than the surface material as they can cause scratching.

Day to day use and weather influences may change the appearance of the product over time.

Maintenance and repair kits are available to repair scratches or to protect the furniture surface. Please visit www.cadix.co.uk or ask your reseller for further details.
